Experience

VSMedia   Vancouver, BC
JavaScript Developer   Jun 2023 - Nov 2023

- Supported millions of users across 15 domains by developing and maintaining critical JavaScript codebase and shared libraries for core functionalities in live video and chat interactions.
- Collaborated with UI/UX teams to innovate and implement advanced chatroom features using JavaScript, WebSockets, and React within VSMedia's MVC framework. Enabled seamless user navigation via voice commands while ensuring continuous interaction with chat functionalities.
- Designed and implemented a streamlined ClickUp workflow using Jira, enhancing ticket-tracking efficiency for project managers and developers. Significantly reduced delays in ticket management and improved overall team productivity.

Axonista   Dublin, Ireland
Front End Developer   Aug 2020 - Apr 2023

- Axonista is a global provider of SaaS products, including Ediflo, which powers video commerce for global brands such as Qurate Retail Group, Waterbear, and Virgin Media, and is written using React and TypeScript.
- One high-profile achievement included the successful launch of the WaterBear platform, which spanned 194 countries worldwide, using Vue JS and CraftCMS.
- Played an indispensable role in the successful launch of the QVC/HSN transactional app on Xfinity Comcast set-top box devices, developing full transactional features using Svlete and GraphQL that enabled users to purchase products on the platform.
- Successfully completed projects through Jira and Slack while working in a fully remote agile environment, collaborating with teams worldwide, and utilizing blank for enhanced team coordination and project management.

Inkerman Technologies   Drogheda, Ireland
Junior Front End Developer   Jan 2019 - Sep 2019

- Inkerman Technologies provides a wide range of technology solutions to small to medium businesses. Their services span from simple website creation to complete Content Management Systems and e-commerce solutions.
- My role included Editing and Maintaining pre-existing PHP, MySQL, and React web platforms. In addition, I was tasked with developing and testing new UI features.
- The success of each project cycle relied on effective communication and collaboration with clients from requirement gathering to production release.

Education

Dundalk Institute of Technology   Dundalk, Co Louth
Degree in I graduated with a Bachelor of Science (BSc) in Computing from Dundalk Institute of Technology in 2020, achieving a First Class Honours (1.1).
